

Invitation for Bids
Two (2) Heavy Trucks with Snowplow and Equipment
ADDENDUM No. 1
Date: September 22, 2023

To All Potential Bidders:

This addendum is issued to modify the previously issued bid documents and/or given for informational purposes and is hereby made a part of the bid documents. Please attach this addendum to the documents in your possession. In addition, please print, sign and date at the bottom of this page to acknowledge receipt of this addendum and submit it with a proposal package.

Request for Change/Clarification

#1 – Page 14, DELIVERY

Specification: Delivery of the vehicle and equipment shall be made within the calendar days as shown on BIDDER specification with delivery date not to exceed three hundred calendar (300) days from the date the contract agreement is executed or the purchase order is signed.

Request for Change: Delivery of the vehicle and equipment shall be made within the calendar days as shown on BIDDER specification with delivery date not to exceed five hundred calendar (500) days from the date the contract agreement is executed or the purchase order is signed.

Airport Response: *The Airport agrees to accept the request for change regarding the delivery schedule – delivery date not to exceed five hundred (500) calendar days from the date the contract agreement is executed or the purchase order is signed.*

#2 – Page 31, Section 1.3, SYSTEM DESCRIPTION

Specification: Snow removal equipment shall consist of a diesel powered, heavy-duty, 6x6 (carrier vehicle).

Request for Change: Snow removal equipment shall consist of a diesel powered, heavy-duty, 6x6 (carrier vehicle) or manufacturer's standard design.

Airport Response: *The airport does not agree to the requested language change.*

#3 – Page 38, Section 2.6, DIMENSIONS AND CLEARANCES (d)

Clarification: (d) Maximum Overall Length: The BIDDER shall state the overall length of the vehicle but shall not exceed 38ft long.

Request for Change: The BIDDER shall state the overall length of the vehicle but shall not exceed 40ft long.

Airport Response: The airport agrees to the requested language change – “overall length of the vehicle shall not exceed 40 feet.”

#4 – Page 54, Section 3.2, CHASSIS MOUNTED DUAL SPINNER CONVEYOR TYPE SPREADER WITH PRE-WETTING SYSTEM

Specification: Minimum 8 cu. Yard capacity with a multipurpose dump body style spreader.

Request for Change: Minimum 8 cu. Yard capacity with a multipurpose dump body style or frame mounted spreader.

Airport Response: The Airport will allow a frame mounted spreader if it is removeable.

#5 – Page 56, Section 4.1, CASTER WHEEL ASSEMBLIES

Specification: Provide manufacturer’s standard catalog dual caster wheel assemblies.

Request for Change: Provide manufacturer’s standard catalog caster wheel assemblies.

Airport Response: The Airport agrees to the requested language change and approves the removal of the word “dual” to this requirement. (applicable to both trucks/plows)

#6 – Page 57, Section 5.2, CARRIER VEHICLE OPTIONS TO BE INCLUDED IN THE BID

Specification: AUXILIARY CAB HEATER AND CIRCULATING FANS SHALL BE PROVIDED

Request for Change: If required by design, auxiliary cab heater and circulating fans shall be provided.

Airport Response: The Airport agrees to the requested language change and approves including “If required by design,” to be placed in front of the specification. (applicable to both trucks/plows)

#7 – Page 58, Section 5.7, RADIO TRANSCEIVERS

Specification: VHF radios used; UHF FM narrow-band mobile radio

Request for Clarification: Please provide the make and model and frequencies for the required VHF radios and UHF FM narrow-band mobile radio required.

Airport Response: The Airport has no requirement for the make and model of radios – please see Section 2.42 for frequencies. (applicable to both trucks)

8 - Page 87, Section 3.2, CHASSIS MOUNTED DUAL SPINNER CONVEYOR TYPE SPREADER WITH PRE-WETTING SYSTEM

Specification: Minimum 6 cu. Yard capacity with a multipurpose dump body style spreader.

Request for Change: Minimum 6 cu. Yard capacity with a multipurpose dump body style or frame mounter spreader.

Airport Response: The Airport will allow a frame mounted spreader if it is removeable.

9 - Page 91, Section 5.9, TOW CHAIN

Specification: Tow chains shall have a minimum link size of ½ inch.

Request for Change: What are tow chains?

Airport Response: Heavy duty binder tie down chain with grab hooks – minimum 20-foot length and minimum link size of ½ inch required.

IFB: Two (2) Heavy Duty Trucks with Snowplow and Equipment - CIRA 2023

#10 – Pages 19-21, FAA BUY AMERICAN PREFERENCE

Request for Clarification: when it comes to American made. Is there a dedicated form that the airport would like to see to be filled out on when it comes to waivers, documentations, etc? Also is there forms on some of the other questions as in clean air,etc.

Airport Response: For the purpose of the IFB submittal, no additional forms are required – BIDDER must select one of the two statements on Page 20 to identify intended means of complying with the Buy American obligations, and also date/sign Page 21. Waivers and associated paperwork would be submitted to FAA (through the Airport) after Notice of Award, but before execution of the contract.

Additional information, including the content percentage and final assembly forms, can be found at the following FAA website: https://www.faa.gov/airports/aip/buy_american
